Elephants in the Community

As our operation has grown over the years, so has our impact. We've been a certified B Corporation since 2015 and proud member of the Portland business community since 1979. We believe in supporting our fellow local businesses and suppliers, and choose to give back to our community by partnering with local companies to deliver high-quality products. Additionally, we have expanded our mission to include a commitment to environmental stewardship through waste, resource, and emissions reductions.
